Program Details

Program Locations

We operate programs in three cities: **Ningbo** (Zhejiang province, south of Shanghai), **Beijing** (north China), or **Xi'an** (Sichuan province, in central China). These are all large, famous, historical cities with lots to do and see.

Program Duration

For you to participate in this program, we require a minimum commitment of six months. This shows us that you are serious about coming to China, and it allows you to benefit substantially from the teaching and learning experience.

Teaching Positions

Participants will provide English teaching in an assigned kindergarten, school or language center, for 25 hours per week. Student ages range from 5 to 15 years old, depending on the institution. Chinese children are sweet, friendly and curious about foreigners, making them ideal students.

There will be an orientation upon arrival to help you settle in and learn from the experienced staff working there – there's no throwing you in at the deep end! Every classroom has multimedia facilities such as an interactive whiteboard, so you'll have plenty of resources to help you teach.

Chinese Courses

Once the teaching schedule is settled, your Chinese classes will be arranged with our professional language course provider. We offer 24 hours per month study time, which will really boost your language skills. And of course you will be able to practice your Chinese whenever you step outside. Chinese people are very welcoming of anyone trying to learn the language!
